

Email, Internet and Electronic Devices Policy

Aims

- A. To provide students with appropriate access to the internet to support their learning-related activities.
- B. To ensure to safe use of email, internet, mobile phones and other electronic devices in all school-related activities by students, staff and the community.
- C. To avoid unnecessary interruption to classes through personal use of mobile phones and other electronic devices.

Scope and Application

This policy is applicable at all times on school grounds and during all school-related activities outside of school grounds. It is available on the school website and applies to:

- A. Employees
- B. Students
- C. Parents
- D. Community members
- E. Visitors to the school

Definitions

- A. **Inappropriate content** - content considered unacceptable in terms of legislation or harmful to students. It includes material that is pornographic, racist, sexist, inflammatory, threatening, hateful, obscene or abusive in nature or which promotes or encourages illegal activities, violence or bullying.

Principles

- A. Students are provided with opportunities to use the internet as a tool to support learning-related activities across a number of curriculum areas.
- B. Education about safety when using the internet will be included as part of the curriculum and access to a Cyber Safety reporting site will be made available to students.

- C.** All staff, students and community members will be responsible in their use of the internet and ensure compliance with the Internet Use Agreement.
- D.** Misuse of the internet, email, mobile phones or electronic devices to access inappropriate content or to communicate inappropriately with others, by any member of the community, will result in disciplinary action being taken. All misuse is to be reported to the Principal and may also be reported to the police.
- E.** Supervision will be provided to students accessing the internet at school to ensure it is used effectively and safely. The level of supervision will be at the discretion of the class teacher, after assessment of the requirements of the task and the capabilities and past behaviour of the student. Teachers should employ strategies to monitor students' internet use and be aware of the general content and suitability.
- F.** To support equity of access, the School may loan school IT equipment, e.g. iPads, to students to use at home if it is for educational purposes.
- G.** Staff and students will be provided with a Kerry Street email address for all school-related activities.
- H.** Parents and volunteers may be granted email and internet access for school-related purposes, subject to agreement with the Principal.
- I.** All electronic messages sent or received in the course of school business will be treated as public records. KSCS email and internet usage by staff and the community may be monitored to ensure acceptable use and content.
- J.** All members of the community will restrict the personal use of email and the internet and avoid opening email or email attachments from suspicious or untrustworthy sources.
- K.** Mobile phones may be used for communication purposes during excursions and camps, and in the case of emergency.
- L.** The school acknowledges that parents may wish for their child to have a mobile phone for safety whilst travelling to and from school. In this case, an 'Acceptable Use of Mobile Phones Agreement' must be signed by both the student and parent. Mobile phones belonging to students will be turned off during school hours except with prior permission of the Principal.
- M.** All community members will ensure that personal mobile phone use at KSCS does not disturb student learning.
- N.** Staff and community member mobile phones will not be used to take images or videos of students or members of the community. School iPads and digital cameras will be provided for this purpose. No photos or videos can be uploaded online unless permission has been granted.
