

Bushfire Policy

Aims

- A. To maintain our buildings and grounds to reduce the bushfire risk to people and property.
- B. To ensure the school is prepared for bushfires, and responsive in the event of a bushfire emergency.
- C. To prioritise the safety of students, staff and community members in the event of a bushfire.

Scope and Application

This policy is available on the school website.

This policy applies to:

- A. Employees
- B. Students
- C. Parents
- D. Community members
- E. Visitors to the school

Definitions

- A. **Circle of Safety/Building protection zone** – a 20 metre zone maintained around the school that is cleared of all rubbish, long dry grass, bark and flammable materials.
- B. **Bushfire season** – runs from November to April in the south-west of WA but is subject to seasonal differences. Bushfire risk can still exist outside of the season.

Principles

- A. The safety and wellbeing of students and staff is at all times the School's priority; staff are expected to monitor and supervise students at all times, **not** fight bushfires.
- B. The school plans for and monitors bushfire risk on school property and at all excursion and camp settings.
- C. Bushfire Rating - the School's physical location rating is **low to medium** (large vacant block nearby). Consideration must be given to the safety of children attending school. Our bushfire rating should always be considered **High**.

- D. Prevention – a building protection zone (as described by FESA) of 20 meters free of rubbish and vegetation will be maintained at all times.
- E. Preparedness – the Emergency Management Plan as written by DYNAMIC will be reviewed annually including evacuation training.
- F. Practise - random emergency procedure drills are carried out throughout the year, at least one is a bushfire specific drill.
- G. Review – review of the evacuation drill and procedures are carried out at their completion.
